

Dear students,

We are looking forward to welcoming you in Ioannina for the winter academic semester or the next academic year.

Please take the following information under serious consideration and get back to us with a first draft of the LA with the modules that you are interested in and that can fit into the LA in terms of ECTS. We will start from there and **we have to finalize the LA by July 7** due to the large number of incoming students (see below).

The Faculty of Medicine at the University of Ioannina (<https://med.uoi.gr/index.php?lang=en>) is a top-ranked medical school located in the region of Epirus. It awards MD, Master's and Ph D. degrees. Post-doctoral research is also conducted. Besides its clinical portfolio, we are also a research-oriented institution, yet our students follow carefully designed courses of study and receive individual attention.

For students with a language capacity in Greek (B1) and for Erasmus+ studies, the whole curriculum is open for mobility.

For students with no language capacity in Greek but with a language capacity in English (level B1 per the Agreement, level B2 recommended for the successful completion of the mobility), the modules stated below are offered in a hybrid manner as follows: lectures in Greek, educational material and exams in English, clinical practice: the Erasmus+ students are integrated within the rotating local student groups with a dual English-speaking chaperone system (i.e. besides the Academic Supervisor, the student has two English-speaking chaperones, one resident and one local student).

The offered modules are **(this list is final)**:

(ID, Name, Semester, Elective/Compulsory, ECTS):

IAY213 English for Medical Purposes 2 Compulsory 2

IAE106 English for Medical Purposes 1 Elective 2

AY509 Hygiene and Epidemiology I 5 Compulsory 4

IAY609 Hygiene and Epidemiology II 6 Compulsory 4

IAE711 Molecular Immunology 7 Elective 2

IAE812 Andrology 7 Elective 2

IAEA02 Gynecological Endoscopy 7 Elective 2

IAE709 Medical Liability 7 Elective 2

IAE807 Diagnostic and Therapeutic Applications of Nuclear Medicine 7 Elective 2

IAE708 Computer assisted surgical applications-Robotic Surgery: Applications in surgical subspecialties 7 Elective 2

IAE906 Prevention of Cardiovascular Disease

IAE603 Topics in Clinical Pharmacology 8 Elective 2

IAE701 Sport Injuries 8 Elective 2

IAE710 Management of Acute Trauma 8 Elective 2

IAE805 Endocrinology of Reproduction and Subfertility 8 Elective 2
IAE801 Microsurgery 8 Elective 2
IAE611 Psychosomatic Medicine 8 Elective 2
AY710 Advanced Surgical Specialties 7+8 Compulsory 5
IAY911 Pulmonary Medicine 7+8 Compulsory 5
IAYA11 Cardiology 7+8 Compulsory 6
IAY905 Ophthalmology 7+8 Compulsory 5
IAE902 Anaesthesiology 9 Compulsory 5
IAE907 Invasive Cardiology 9 Elective 2
Paedo-Ophthalmology 9 Elective 2
IAE920 Angiology-Vascular Surgery 9 Elective 2
IAE919 Pain Therapy 9 Elective 2
IAE921 Physical Medicine and Rehabilitation 9 Elective 2
IAY903 The normal child - Introduction to Pediatrics 9+10 Compulsory 10
IAY913 Obstetrics-Gynecology I 9+10 Compulsory 8
IAYB05 Neurology 9+10 Compulsory 6
IAY705 Urology 9+10 Compulsory 5
IAY708 Orthopaedics and Traumatology 9+10 Compulsory 6
IAE905 Leukemias 10 Elective 2
IAEA11 Endocrinology and Diabetes 10 Elective 2
IAEA13 Advances in Intensive Care Medicine 10 Elective 2
IAEA15 Maxillofacial 10 Elective 2
IAEA16 Perioperative Echocardiography 10 Elective 2
IAE918 Adolescent Medicine 10 Elective 2
IAE917 Gynecological Oncology 10 Elective 2
IAYB02 Surgery-Compulsory Clinical Practice Course 11+12 Compulsory 13
IAYB04 Obstetrics-Gynecology II 11+12 Compulsory 10
IAYB03 Pediatrics 11+12 Compulsory 13
IAYB01 Internal Medicine 11+12 Compulsory 13

Please bear in mind that it is not possible to take the exam only even if you have attended lectures and have completed your clinical training at your home institution.

All clinical training takes place at the University Hospital of Ioannina. Students should have their white coat and stethoscope with them, they can wear their own scrubs or their regular clothes under their white coat and the dress code is the standard medical one.

Please note that the deadline for the finalization of the Learning Agreement for the whole academic year or for the winter semester is **July 7** so that a seamless clinical rotation is guaranteed. Thus, you must start the communication with the Erasmus Committee at the Faculty of Medicine (erasmus_med@uoi.gr) IMMEDIATELY because for the clinical modules the clinical rotation is obligatory and the modules proposed by you may not fit into the clinical rotation program. Moreover, some of the elective modules may not be offered every year depending on the student interest. Finally, please keep in mind that all student requests require at least 3

working days to be processed. **Due to admin reasons, there is no possibility to approve the LA after July 7.**
